

It's up to **you.**

Jobs. Roads. Hospitals. Schools.

The 2010 Census is important to every Lesbian, Gay, Bisexual and Transgender person in the United States. Help your community get what it needs for the next 10 years. Get involved today!

Tell the World

The census counts same-sex partners, and for the first time in 2010 will count same-sex married couples. Transgender respondents are counted as the gender they identify.

Show Pride

Text it, tweet it, and write about the 2010 Census on your blog and Facebook page.

Hit the Streets

Pass out census fliers at community centers, churches, bookstores, coffee shops, nightclubs, and anywhere else LGBT people gather.

Do it Together

Organize a team of local leaders to develop and implement a campaign to ensure every LGBT member of your community knows the 2010 Census is easy, safe and important.

“Mail it Back!”

Tell everyone: Fill out the census form and mail it back when it comes in March. By law, your responses are confidential and cannot be shared with anyone.
